

Suggested School Supplies

DeWitt Junior High School

The items listed in this document are not required. Rather this is a list of suggested supplies that will be used in classes at the Junior High School. We hope you find this helpful as you prepare to enter the Junior High School next year.

- Post-it notes- These are used a lot for note-taking, reading strategies, and class activities
- Index Cards- These are also used a lot for in-class activities
- Mobile Learning Device (Laptop, Chromebook, tablet, etc.)- Students will do many assignments and activities that use the Internet and Google Apps in particular. We do have devices at school, however there are many benefits to the students when they bring their own device. If you are considering purchasing a device for your student this is a recommendation from our technology department:

HP Rugged and Durable Chromebook 14 G4

SEHI Order Number: T4M32UT + HP-ES-CB34-GRY

\$211.15 + Shipping/Handling and 3% Credit Card processing fee

http://www.buysehi.com/config.asp?config_id=221-14Chrome2016

As in previous years, most other late model wireless devices that students bring with them will work on our network. The Chromebook listed above is the one we will be purchasing this year, and is offered as a recommendation only. Other models may be perfectly fine for your child's needs.

- Binders- either a small one for each subject or a large one for multiple subjects depending on the students' organization style.
- Pens, pencils, highlighters
- Notebooks- either a small one for each subject or large one for multiple subjects depending on organization style.
- Folder with pockets- one for each subject
- Combination lock for gym locker
- Calculator- a basic 4-function one is fine
- 2-3 Presentation boards- These are used for the Science Fair and other projects throughout the year
